

projects

san diego state university

Client: San Diego State University

Location: San Diego, California

Project Type: Renovation

Seat Count: 120

Opening: 2008

Construction Cost: \$1 Million

Contact: Dr. James Frazee | Director of Instructional Technology Services | 619.594.2462

AD Scope: Acoustics | Audio

As an educational facility, the SDSU Distance Learning Center provides video capability to several remote classrooms. STC's scope of work included speaker system designs that provided good quality sound and even coverage to all seats. Adjacent to the noisy campus transportation center, a key element to this project was the acoustical and sound isolation design which allowed for a quiet classroom environment.

This project was done by Acoustic Dimensions San Diego as Sound Technology Consultants, Inc.
