Client: Viacom

Location: New York, New York

Project Type: New Construction

Contact: Scott James | Viacom Facilities | 212.258.8560

AD Scope: Acoustics | Sound Isolation | Noise Control

Since 1995, Acoustic Dimensions has provided acoustic design services for more than a dozen Studio and Production Facility projects for various Viacom brands. Our projects have included:

- Street Front Midtown Studio
- Video Edit Facilities
- Nickelodeon Animation Studios
- Nickelodeon Insert Stage
- Digital Hybrid Network Video Production Facilities
- Showtime Post Production Facility

For each project, Acoustic Dimensions was retained to provide state-of-the-art services ensuring the acoustical environment. Acoustic Dimensions provided sound isolation consulting services and advised on critical mechanical and electrical systems noise and vibration control issues. Among the many challenges was simultaneously achieving flexible studio space and sound isolation between three street front studios overlooking noisy Times Square in Manhattan.
