

projects

state capitol building

Location: Olympia, Washington

Project Type: Renovation

Location: Olympia, Washington

Architect: Einhorn Yaffee Prescott Architecture & Engineering

Contact: EYP | 917.981.6000

AD Scope: Acoustics | Sound Isolation | Noise and Vibration Control

The Washington State Legislative Building is listed on the National Register of Historic Places, as well as on the Washington State Register. The 287-foot-high dome is the fourth tallest all-masonry dome in the world. The building required a sensitive renovation to preserve this structure for future generations and update it for current users.

Acoustic Dimensions was invited to join a team of specialists from around the nation. As the acoustics consultant, AD provided consultation and recommendations for room acoustics and noise and vibration control.
