Opening: 2008

Seats: 2,085

Contractor: CDI Contractors

Construction Cost: \$65 Million

Contact: Tom Henninger | Entertainment Design Coordinator | 417.335.7900

AD Scope: Acoustics | Sound Isolation | Noise Control | Audio Systems | Distributed Audio

The Sight and Sound Theatre opened a new venue in Branson which will be a duplicate of the company's Millennium Theatre in Strasburg, Pennsylvania. Sight & Sound Theatre has been described as the largest faith-based live theatre in America. Each year, about 800,000 people come from across the country and around the world to experience a production at one of Sight & Sound's two theatres in Lancaster County, Pennsylvania.

The company's purpose is to visualize and dramatize the Bible through live stage productions, illustrating faith in the same way that Jesus did, by storytelling. Sight & Sound's original musical theatre productions are characterized by the spectacular. Most shows feature a professional cast of more than 50, elaborate sets towering up to 40 feet high, hundreds of costumes, and trained animals ranging from camels and horses to dogs and flight-trained birds. Spectacular special effects permeate the shows and include set pieces that rise up through the stage floor, 3D video imaging, pyrotechnics, and artistic lighting effects including lasers.
