## sullivan theatre

**Client:** Texarkana ISD

**Location:** Texarkana, Texas

**Project Type:** New Construction

**Seat Count:** 1000

**Opening:** 2009

**Construction Cost:** \$13.2 Million

**Architect:** SHW Group

**Contact:** Mark Hill | SHW Group | 214.473.2400

**AD Scope:** Acoustics | Audio | Video | Lighting | Stage Systems | Theatre Consulting

Texarkana ISD added a performing arts theater on the existing Texas High School campus. The goals for the new facility were to create a focal point on campus for performing arts and to provide a quality performance venue for both the school and community involvement.

Ultimately, this project was design-build with Acoustic Dimensions providing full design services for theatre consulting and acoustics, architectural accommodation and infrastructure design of the performance systems and equipment lists and RFP's for the audio, video, lighting and staging systems. The design required a link between the new theater and the main classroom building in order to integrate the two buildings.
