Cost: \$23 Million

Architect: SHW Group

Contact: Brett Holzle | SHW Group | 214.473.2400

AD Scope: Acoustics | Audio | Video | Theatrical Lighting | Stage Systems

Rockwall ISD has made a commitment to fine arts education in their community with the expansion and renovation of the Utley Middle School theatre to be used by Rockwall High School. The theatre was expanded from 880 seats to 1500 and included extensive upgrades to the acoustics, audio, lighting and video projection. The school plans to use the facility to host theatre productions, special concerts and other school events.

The school also asked AD to provide acoustics consulting for their new black box theatre and band hall, as well as various remodeled spaces including a broadcast studio, the choir room, orchestra hall and associated practice spaces.
