Glen Clark

cajundome

Client: Cajundome and Convention Center

Location: Lafayette, Louisiana

Project Type: Renovation

Seat Count: 12,068

Opening: 2009

Construction Cost: \$3 Million

Contact: Phil Ashurst | Operations Director | 337.265.2143

AD Scope: Sound Reinforcement | Video Production | LED Displays

The Cajundome is home to the Louisiana Ragin' Cajuns basketball teams of the University of Louisiana at Lafayette and the Louisiana high school basketball state championship. A recognizable landmark, the arena also hosts many regional concerts and special events, such as World Wrestling Entertainment events and the annual outdoor Cajun Heartland State Fair, an eleven day state fair that attracts over 175,000.

Acoustic Dimensions worked with the Cajundome to write RFP's, provide design approval, construction administration, and final commissioning leading to the upgrade of all the area display systems, the in-game video production system and the sound reinforcement system. Our project scope included indoor fascia advertising displays, a basketball video and scoring center hung display, an outdoor marquee and all related input, output, processing and control equipment.
