AD Scope: Sound Reinforcement | Video Production | Editing Suites | Broadcast Infrastructure | LED Displays | Cubs/Suites A/V | Scoring & Timing Systems | Coaching Analysis Systems | Officiating Systems | In-House Cable TV Systems | Broadcast Lighting Accommodations | Room Acoustics | Environmental Noise Analysis

Lincoln Financial Field showcases huge video scoreboards, a zoned sound system and luxury suites with Internet access and high-definition television. NBBJ's concept for the architecture was unique. Rather than the traditional bowl design, the stadium features three open-plaza corners for entries and views of the city and into the stadium. 172 luxury suites are located above and below the club seating level. The stadium experience is very intimate because front row seats are only 60 feet from the playing field.
