**Architect:** Rossetti Architects

**Contact:** Dave Richards | Rossetti Architects | 248.262.8300

**AD Scope:** Noise & Vibration Control | MATV | Broadcast Infrastructure | Security Infrastructure | Telecommunications Infrastructure

Kennesaw State University built their soccer-specific stadium to be the home of their women's soccer team. The facility is the largest women's-only soccer stadium in the world and will be used by the Women's Professional Soccer team, the Atlanta Beat, who will manage the stadium bookings and operations for events including soccer, concerts and festivals.

The stadium includes sideline, family section, on-field and suite-level seating and has a stage at one end to accommodate concerts with up to 16,000 attendees. It also features luxury suites, concessions, state-of-the-art training facilities, coaches' offices, locker rooms, a player lounge and a media room.
