ucla pauley pavilion

Client: University of California

Location: Los Angeles, California

Project Type: Renovation/Expansion

LEED® Status: Pursuing LEED® Certification

Seats: 12,829

Opening: 2012

Cost: \$125 million

Architect: NBBJ

Contact: Scott Hunter, AIA, LEED AP | Senior Associate/Corporate Commercial Practice Director | 213.243.3339

AD Scope: Arena Sound System, Cable TV, Broadcast Cabling, Team and Club AV Systems

NBBJ is leading the design team for a planned \$125 million renovation and expansion of Pauley Pavilion at UCLA. Pauley Pavilion, which opened in 1965, has a rich heritage given its role as the on-campus home court to the UCLA Bruins men's basketball, gymnastics and volleyball programs. The campus landmark has served as the home court for 38 NCAA championship teams, hosted renowned entertainers including Frank Sinatra and Luciano Pavarotti, welcomed the world during the 1984 Olympics, hosted a 1988 presidential debate and staged commencement ceremonies for thousands of UCLA alumni.

The renovation included accommodations for a new centerhung video display and 360 degrees of fascia LED boards; new speaker system for the arena seating, concourses, and restrooms; AV systems for a new team meeting room, player lounges, and Stadium Club; a unique donor wall incorporating the new Christie MircoTiles as a display element; and acoustics design.
