vines center

Client: Liberty University

Location: Lynchburg, Virginia

Seat count: 9,000

Project Type: Renovation

Opening: 2005

Cost: \$500,000

Contact: Mike Gerringer | Audio Director | Liberty University | 434.832.2071

AD Scope: Sound Reinforcement | Room Acoustics

The Vines Center is a 9,000-seat multi-purpose arena in Lynchburg, Virginia. It was built in 1990 and is home to the Liberty University Flames basketball team.

The University contacted AD for a major renovation of the existing audio system including acoustic treatment and new speaker system design to better support concerts, convocations, and sporting events within the space. The arena has an aluminum dome ceiling which was not designed to handle high loads or strong fly points. AD designed a system that would work within the existing structural constraints.
