

projects

at&t park video production suites

Client: San Francisco Giants

Location: San Francisco, California

Project Type: Renovation

Opening: 2007

Construction Cost: \$9 Million

Contact: Bill Schlough | Vice President & CIO, SF Giants | 415.972.1715

AD Scope: Video Production | Editing Suites | LED Displays | Scoring & Timing Systems

Acoustic Dimensions used 3-D visualizations during the design process to test the sightlines and control positions for the operators within the room.

The flythrough was also used to communicate the design concepts to the production teams so that they would have an understanding of how the newly renovated room would function, look and feel on opening day.
