broadmoor baptist church

Client: Broadmoor Baptist Church

Location: Madison, Mississippi

Project Type: New Construction

Seats: 2,500

Architect: CDH Partners

Contact: Bill Chegwiddden | CDH Partners | 770.423.0016

AD Scope: Visualizations | Auditorium Consulting | Acoustics and Performance Systems Planning

Acoustic Dimensions worked with CDH Partners on the development of the proposed new worship center for Broadmoor Baptist Church in Madison, MS. CDH provided AD with the initial SketchUp model and hand-drawn sketches. AD provided auditorium design services and developed a fully rendered 3-D AutoCAD model that coordinated with CDH's architectural concept.

The flythrough and stills were developed for fund raising and to communicate the design concepts to the congregation in a manner that connects.
