Warwick Arts Centre is a multi-venue arts complex at the University of Warwick in Coventry, England. It is the largest arts centre in the Midlands, attracting around 280,000 visitors a year to over 2,000 individual events embracing music, drama, dance, comedy, literature, films and visual art. It comprises six spaces on the same site, a concert hall, two theatres, a cinema, gallery, conference room as well as hospitality suites, a restaurant, cafe, shops, and two bars.

Acoustic Dimensions is providing design for acoustics, stage lifts, adjustable acoustics mechanisms, theatre grid, sound and lighting for the centre's concert hall -- Butterworth Hall.
