

projects

saddleback student zone

Client: Saddleback Church

Location: Mission Viejo, California

Project Type: New Construction

Seat Count: 800

Opening: 2008

Architect: Saddleback Development Company

Contact: Greg Baker | Technical Director | (949) 609-8524

AD Scope: Visualizations, Acoustics, Audio, Video, Lighting, Auditorium Consulting

Saddleback Development Company provided the initial Sketch Up model for the Student Zone project. AD provided the visual fly through and developed the acoustic design and performance technology design.

The 800-seat room is designed to create different experiences depending on where you are in the space. The room is also designed to be visually scalable with three distinct types of seating areas.

The animations of the building were used to communicate concepts for the project to user groups and the design team.
