brentwood connection center

Client: Brentwood Baptist Church

Location: Brentwood, Tennessee

Project Type: New Construction

Seat Count: 1000

Opening: 2009

Construction Cost: \$19 Million

Architect: HH Architects

Contact: John Dyer | Brentwood Connection Center | 615.324.6100

AD Scope: Acoustics | Room Design Assistance | Audio | Video | Lighting | Visualizations

The campus for Brentwood Baptist Church needed a space to support the greater church community as well as youth and young adult programs.

The multi-purpose worship space was designed with flexibility in mind. The seating is retractable so the space can be used as either a flat floor room or with raked seating to provide for a better congregational worship experience. The upstage wall is floor to ceiling glass which can be left open to allow connection with the outside, or closed with either sun-shades or a blackout curtain for productions.

Displays were provided throughout the Connection Center to display information and provide a look into the multi-purpose room. These displays are fed hi-definition information through standard CAT5 cabling originating in the video production room.
