## first baptist church of indian rocks

**Client:** First Baptist Church

**Location:** Indian Rocks, FL

**Project Type:** New Construction

**Seat Count:** 3,200

**Opening:** July 2005

**Architect:** STH Architects

**Contact:** Bill Hanser | STH Architects | 561.832.5599 x206

**AD Scope:** Audio | Video | Acoustics | Broadcast Lighting | Architectural Lighting | Room Design Assistance

The First Baptist Church of Indian Rocks has been meeting in a multipurpose space on their campus. AD is working with Schwab, Twitty, Hanser on the design of a new, permanent worship facility.

The room has a sloped main floor and terraced seating at the rear. There are 200 seats in the choir loft.

An alternating left/right audio system is planned to support the church's strong music program. IMAG video and cabling infrastructure for broadcast is part of the design.

Camera positions and the control booth are well integrated into the seating layout.
