Opening 2005

Construction Cost: \$5 Million

Architect Price, Newman, Payne Architects

Contact Scott Toth | Technical Ministries | 336.288.3824

AD Scope Acoustics | Audio | Video | Lighting

Lawndale Baptist Church is a visionary church that wanted a new facility to support their members on their journey of faith. The church offers two different styles of Sunday morning services - a traditional service, which includes choir and orchestra, and a contemporary service with a praise band and worship singers. Music is an important part of services and ministries include children's, youth, adult and senior choirs, handbells, praise teams and ensembles and seasonal music/drama presentations.

AD provided consulting services for acoustics, sound isolation, noise and vibration control, ceiling design, audio systems, distributed audio for the lobby with paging and intercoms, assistive listening systems, video projection, camera planning and theatrical and architectural lighting.
