Contact: Greg Holder | Senior Pastor | 636.532.1212

Art Kuiper | Project Manager | 636.532.1212

AD Scope: Audio | Acoustics | Video | Theatrical Lighting | Auditorium Design

Worship at Windsor Crossing Community Church (WCCC) has a contemporary edge with dramas and multi-media presentations used to support the message. The atmosphere at WCCC is relaxed, and the mission is to reach both believers and non-believers with Bible-based teaching that relates to daily life.

To help achieve this mission, WCCC has built a new worship facility on 35 acres of land. Phase 1 of the project included a worship center that seats 800 and a children's wing. Phase 2 of the building project will include expanding the worship center by another 150-200 seats and the addition of a youth room and 2 more children's rooms.

Oversized video screens with an aspect ratio of 16x9 were recommended to be used in the worship center because of the unique asymmetry of the room. The large screens give video a very prominent place in worship now, and will be suitable for the larger room when it is expanded.
